Note that there was some difference between sources as to the second cruiser that served in the Mediterranean. The label here shows the Idzumo however Conway's 1906-1922 notes that it was the Nisshin. The Akashi was certainly the first there and she was the leader for the 10th and the 11th Destroyer flotillas. The Idzumo/Nisshin came with the 15th flotilla.

I included a label for Nisshin.

Magister Militum was very helpful to me as well when it came to obtaining the cruisers.
